Premium Residential & Commercial Audio/Video Products

**SA-TEL1
600 ohm -600 ohm
Isolation Transformer**

Owner's Manual

Introduction

Congratulations and thank you for purchasing a Sound Acoustics product. The SA-TEL1 is a 600ohm-600ohm isolation transformer that can be used to remove line noise, provide isolation from one device to another and match levels between devices. Use the SA-TEL1 between the output of an analog telephone paging port and a paging amplifier. The SA-TEL1 provides precise level matching and protects the amplifier from DC voltages that are common on phone system outputs. The SA-TEL1 can also be used to remove noise and hum from unbalanced audio connections. The SA-TEL1 also includes a security knob cover to prevent unauthorized tampering after the installation. Please read this entire manual to get the most from your Sound Acoustics SA-TEL1 isolation transformer.

Includes:

SA-TEL1

4 x Mounting Screws

1 x Knob Security Cover

Warranty

The Sound Acoustics SA-TEL1 is warranted to be free from defects in workmanship and materials for a period of three (3) years without charge for parts or labour. The warranty applies only to the original owner. The owner's responsibilities are to provide proof of purchase and transportation to the dealer the unit was purchased from or transportation to the Sound Acoustics factory. This warranty does not apply to units which have been subject to misuse, abuse, neglect or improper installation, and does not apply to repairs or alterations by unauthorized personnel. This warranty specifically excludes responsibility for consequential damage.

Retention of your dated ORIGINAL BILL OF SALE is required to obtain service under the terms of the warranty.
